Company & Employee Curriculum Vitae

Robert Urmson, Director

Introduction

Robert has almost 30 years of commissioning engineering experience, working on diverse projects worldwide ranging from small office buildings to major complex hospital buildings. In this time Robert has 25 years of owning and growing a company from inception to a financially robust operation, employing 30+ skilled operatives, and an annual combined turnover of £3.8 million. Robert has a skilled technical commissioning background and the experience which has enabled Robert to recognise and combine best practice to a successful sustainable business. Robert experience has also given him an exclusive insight into the building services sectors.
